## 8. Communicate MORE about equity

- When it comes to equity there are roughly 4 "tiers"
  - US > UK > France/Germany/Nordics > Rest of the world
- Most of the literature is US based
- Founders/Executives understanding of equity >>> Employee & Candidate's

- Founders create fancy models based on US literature that Europe-based employee and candidates don't understand. Equity's impact on attraction and retention is often overvalued 🙄
- Communicate more and more often. At hire, provide resources to understand equity. Regularly, hold sessions on equity (generic / specific to your company's equity story)
