HAMBURG

A Historic Jewel Returned to its Original Splendor

With its magnificent architecture, elegant boulevards, the Inner Alster Lake and the canals behind the town hall, Hamburg's city centre is a fascinating destination. Also called the Hanseatic City, this major port city is located in northern Germany and connected to the North Sea by the Elbe River.

Fraser Suites Hamburg is situated in one of the more prestigious areas of the city, where the sophistication of Neuer Wall, energy of HafenCity (Harbour City) and the history of the UNESCO World Heritage site of Speicherstadt combine. Guests soon discover that history, culture, business and the arts are just a few steps away from their luxurious accommodation.

This luxury 5-Star hotel occupies historic *Oberfinanzdirektion*, the former office of Hamburg's Tax Authority, situated in the heart of the Hanseatic city. All 154 rooms and suites have been designed to offer a serene, yet sophisticated, experience. As one of the most famous buildings in Hamburg, the exterior and many parts of the interior are heritage-protected.

Library

Rödingsmarkt has long been the vibrant 'living room' of Hamburg, a place to convene, converse and celebrate. Some of Hamburg's most famous tourist attractions, such as the Speicherstadt Warehouse District, Miniature Wonderland, Elbphilharmonie, and Lake Alster are just a short stroll away. Paying tribute to the Hanseatic City, Fraser Suites Hamburg is a luxury property that is tailor-made for the many national and international visitors who come to discover - and rediscover - Hamburg.
