FLOATING ON THE CANAL: CAN'T FIND A BETTER LOCATION

Hamburg is the city of water, and water makes you happy. The NYX Hotel Hamburg is located directly at a typical canal, and anyone sitting on the wonderful terrace with a glass of wine will notice it right away: the scent of the big wide world. Speicherstadt, Elphi, Reeperbahn and Fischmarkt - Hamburg's highlights are only a stone's throw away from the central district of Hammerbrook. Guests don't have to take a trip around the world to get to or from the hotel: NYX Hotel Hamburg is perfectly connected - airport, train station and highways are quickly reached. Is there a better base for business travellers or city adventurers? **Exactly.**

FUNKY LIFESTYLE: THE CONCEPT OF NYX HOTELS

Non-conformist, creative, fancy: NYX Hotels by Leonardo Hotels - this is a new generation of hotels for all those who value individual lifestyle and take the freedom to do their own thing. Innovative design, modern art, living zeitgeist: NYX Hotels do not fit into any grid, they are as individual as their guests and locations, colourful as the day and mysterious as the night.

NYX Hotels are named after the Greek goddess of the night - a sophisticated template for a young, wild hotel brand. A promise to those who want an inspiring environment on their travels, around the clock. "We own the night" is the motto at NYX Hotels, which are famous for its party nights and art events. The local spirit is the cherry on top of the cocktail and the special charm of each hotel, from Milan to Warsaw, from the Isar to the Elbe: Local artists design rooms, popular DJs provide cool beats.

Long live the big city.

ART INSTEAD OF DECORATION: WHEN ART COMES TO LIFE

Art belongs in a museum? Not at all! NYX Hotels show that art unfolds best when it surrounds us - while we work, live, relax and celebrate. This way, it is always in view and an inspiration for everyone. That's when it comes to life, around the clock. NYX Hotels bring art to people and people to art.

If you walk through the door at the NYX Hotel Hamburg, you can already see the art pieces - at the entrance, in the open lobby, on the pillars and in the restaurant. The building is something like an inhabited gallery, where local creatives have realised their potential - elaborate murals and three-dimensional graffiti run through the building, art-chairs are waiting for guests to sit down, individually designed by Hamburg artists.

The hotel as a creative experience space, completely without admission fee and fixed opening hours ...

CITY LOVERS: THEY HAVE THE SPIRIT

The best fish sandwich, the weirdest harbour pub, or a neighbourhood tour with red-light expert Eddy Kante? They've got them all - the tips and addresses that make Hamburg worth living in: City Lovers are employees of NYX Hotels. They are friendly and approachable, know and love their city - and they beat every guide with their knowledge.

City Lovers are also Hamburg experts such as hotel director Marcus Schelbert or head chef Johannes Oborovski, who are always good for a hot tip, whether for clubbing or feasting. Guests of the NYX Hotel Hamburg can go on tour with them -

Marcus Schelbert

- Enthusiastic Hamburg resident by choice
- Loves the local arts and events scene
- Always has a night out tip up his sleeve
- Big network, small world

Johannes Oborovski

- Passionate about working with fresh products
- Loves to develop special dishes
- Has many tips for fusion cuisine
- But prefers to eat Mediterranean himself

the City Lovers design new, exclusive tours every month - with their current highlights in an app. And, because art is a top priority at NYX Hotels, there are special art journeys individually put together by the Hamburg artists who helped design the interior. A new exhibition, cool street art or the latest creative scene?

FOOD FOR LIFE: LONG LIVE THE FUSION KITCHEN

Welcome to the world of culinary delights. The ‚Clash‘ is a hotel restaurant that breaks ranks - and reinterprets delicacies from international cuisines. These are served on lavishly set tables or as snacks at the bar: a still life of colours, shapes and sensuality - the ingredients fresh, healthy and aromatic. Small bowls, big variety: The mix of finger foods and small dishes is

perfect for casual dining and celebrating community. Fusion street food cuisine at the NYX Hotel Hamburg is therefore not only a culinary experience, but also authentic and sustainable: A variety of tasty dishes are served, grown and supplied by regional producers. And food waste is not an issue - the house is a partner with the “Too good to go” initiative.

MEETINGS WITH A DIFFERENCE: SPACE TO THINK

Room for creativity: Anyone who wants to develop ideas needs an inspiring environment and the opportunity to unfold - “off-the-shelf” meetings are a thing of the past. The NYX Hotel Hamburg offers a total of 107 square meters of space for two event rooms that are fun and far removed from rigid standards.

The interior is stylish and can be flexibly combined - conferences are held in such a way that participants feel comfortable. Modern conference technology enables all conceivable event formats - from hybrid to totally digital. DJ booth, data projector, presenter's case? Everything is there - and the view of the water through floor-to-ceiling windows sends thoughts on their way.

Individual add-ons can be booked upon request: The restaurant with front cooking station turns every meal into a show event. Still missing that little extra? You can find it at the bar: a 46-square-meter waterfront terrace with direct access to the meeting area.

Meetings can be so nice.

FOR PEOPLE AND PLANET: SUSTAINABILITY BY DESIGN

Travel, sleep and simply feel good: The NYX Hotel Hamburg is a hotel that combines everything you need. As a brand of Leonardo Hotels, NYX Hotels pursue a stringent ESG strategy and are committed to people and planet - also in Hamburg.

Modern technology to save valuable resources and reduce emissions: By 2024, all hotels in the Leonardo Group will be certified with the “Green Key” eco-label, 70 percent of all hotels are currently cooperating with the “Too good to go” initiative against food waste, and guests can also get involved for a better tomorrow. For example, the “Green Option” gives them the opportunity to forego cleaning their rooms in favour of social projects.

Travelling green: already a reality at NYX Hotels.
