

STARBASE

A HYBRID EVENT SPACE

ABOUT STARBASE

Brought to you by the creative minds behind experiential event company, [Fresh Wata](#), StarBase is the world's first hybrid entertainment and event space located in Las Vegas that combines live and virtual event experiences for private events, corporate bookings, viewing and watch parties, live performances, entertainment experiences, and social programs.

STARBASE SPACES

EVENT SPACES

Not every space is fully enclosed with ceilings walls and doors. Many of the areas flow into one another inviting guests to transition between environments and experience more of what our space and your event has to offer. With private bookings, you have access to all of these areas, or we can help you scale the event footprint down as requested.

INTERGALACTIC!

FLOOR PLAN

The entire venue comes set with an array of inventory as [seen in some photos](#). Don't get too attached to any one look or feel. Areas are seasonally redesigned with art and lounge updates to keep scenes fresh and exciting.

SPACE	MAX PASS	SQFT
