SUSTAINABILITY AT SCANDIC HAMBURG EMPORIO

Sustainability is more than just a trend for Scandic and has therefore been an integral part of our corporate philosophy since 1993. In addition to comprehensive measures to conserve energy and resources, it is particularly important to us, to scrutinize operating processes and constantly improve the conditions for people and the environment. Because many small steps can make a big difference - together for a better future.

SUSTAINABILITY IN THE BUILDING:

- No individual packaging for cosmetics
- Room cleaning on request
- Preferably LEDs and energy-saving lamps with motion detectors
- Mobility concept: e.g. bike rental
- Recertification with "Reisen für Alle" & DGNB Gold
- Use of 100% recycled paper
- Central vacuum cleaner system

- Four E-charging stations for guests
- Scandic in Society: e.g.: Recyclehero Partnership: Deposit is converted into donations and used for social purposes

SUSTAINABILITY IN THE RESTAURANT:

- Careful product selection, e.g. fair trade organic coffee
- More than 30% organic products at the breakfast buffet
- Allergy-friendly ingredients, e.g. lactose- and gluten-free baked goods & own dishes
- No individual packaging at the buffet
- Scandic water: self-purified water that is treated with minerals and UV light
- No use of table linen
- Sustainable and biodegradable lunch boxes
- Recycling of frying fat and food waste with Refood
- Saving food with "Too good to go" app
- Member of European Chicken Commitment
- Viva con Agua partnership
