# *Touché*

In Barcelona we love terraces. We all do. We also love the beach. And green spaces. Touché Beach Garden has all of that. And more. One hundred and twenty square meters outdoors, an oasis sheltered from the noise and stress of the city, immersed in the massages of the sea breeze.

Touché constitutes a modern and contemporary space, with beautiful views, soft and warm colors, cozy furniture and surrounded by vegetation.

In short, we have the perfect space for all kinds of events. We want your event to be perfect and that the memories of Touché are unbeatable.
